

Omar Sayed Sallam

Location : Giza , Egypt | **Phone :** 01557350831 | **Email:** omarsallam226@gmail.com
Military Status: Exempted (Final Exemption)

Summary

Motivated and detail-oriented maintenance aviation engineer with a strong educational background in aerospace engineering and practical experience in aircraft maintenance and repair. Eager to apply theoretical knowledge and hands-on skills to contribute to the efficiency and safety of aircraft operations.

Education

Bachelor of Aeronautical Engineering

Institute of Aviation Engineering and Technology

Sep 2020 – Jul 2025

Grade : very good

Graduation project degree : Excellent

Experience

Mechanical Engineer | Technical Office Manager – HVAC April 2026 Ductwork At AL SAFEER Industry

- Prepared HVAC shop drawings and performed quantity take-offs for ductwork systems, grilles, and air distribution outlets using AutoCAD.
- Developed fabrication drawings, duct unfolding, and nesting using CAMduct in accordance with SMACNA standards and industry best practices.
- Generated NC files for CNC-controlled fabrication equipment, including plasma and laser cutting machines.
- Produced installation and assembly sketches to streamline site installation and improve execution efficiency.
- Managed coordination between client consultants, site teams, and internal departments to ensure smooth project execution.
- Monitored project progress, maintained schedule compliance, and ensured quality standards throughout all project phases.
- Supported successful project delivery through effective technical planning, coordination, and workflow management.

Training Experience

Egyptian Aviation Academy | Intern Aviation Engineer

Nov 2025 – Mar 2026

- Basic introduction for undergraduated aeronautical engineers phase (I) & (II)
- Introduction to aircraft systems and aircraft maintenance fundamentals and procedures.
- Acquainting with the basic maintenance engineer knowledge.
- Informed about procedure, techniques and new equipment in use. Gained Knowledge of different Aircraft Systems/Structure

Nuclear Materials Authority | Maintenance & Engineering Intern

Aug 2022 – Sep 2022
Cairo, Egypt

- **Assisted** in the hands-on maintenance of **Pratt & Whitney PT6A-42** turboprop engines and **Beechcraft B200** aircraft.

- **Performed** detailed inspections and **Preventive Maintenance on Airframe, Engine, Electrical, and Avionic systems.**
- **Ensured** strict compliance with **Egyptian Civil Aviation Authority (ECAA) regulations** during all flight operations and maintenance tasks.
- **Summarized** technical data from **Manufacturer Manuals** during theoretical refresher sessions to optimize system troubleshooting

**ITIDA & National Telecommunication Institute (NTI) |
Summer Training Intern**

Jul 2022 – Aug 2022

- **Successfully Completed** an intensive **120-hour training** program focused on **Cisco Cybersecurity** and information security fundamentals.
- **Developed** essential professional **Soft Skills**, including **Leadership, Strategic Problem-Solving, Communication, and Teamwork** in a collaborative environment.
- **Gained** a solid foundation in **Information Security, Data Privacy**, and modern **Freelancing** methodologies.

Projects

Graduation Project: Design & Manufacturing of V-Tail UAV

Advanced Aerodynamic Features

- Engineered a high-performance V-Tail Unmanned Aerial Vehicle (UAV), optimizing the tail configuration to reduce weight and drag while maintaining dual-axis control.
- Executed advanced Aerodynamic Analysis and CFD simulations to refine wing profiles and ensure superior stability during flight.
- Managed the full lifecycle from Conceptual Design to Manufacturing, integrating lightweight composite materials and electronic flight control systems.
- Collaborated within a team of 2 to distribute technical tasks, ensuring precise integration of structural and aerodynamic components.

Skills

- **Software & Tools :** Microsoft Office Suite (Excel, Word, PowerPoint), SolidWorks, Matlab, Basics of Autocad.
- **Interpersonal Skills:** Strong Problem-Solving, Analytical Thinking, Very Good Communication, and the Ability to learn new tasks quickly.

Language

Arabic: Native

English: Professional working proficiency

French: good
